

Ark-Tex Council of Governments

FREE WEATHERIZATION PROGRAM

The City of Port Lavaca is sponsoring a Weatherization Program that can make your home more energy efficient and save you money each month on your utility bills. You may qualify for energy saving measures that can help make your home more energy efficient. Qualified measures can include: CFL light bulbs, attic insulation, solar screens, caulking and weather-stripping, and energy efficient appliances such as refrigerators and window air conditioning units.

Qualifications for the Weatherization Program include:

- You must be an AEP Texas Central Company electric metered customer.
- Must meet certain income requirements. Your income eligibility will be verified following procedures in the Texas Administrative Code Rules for Energy Assistance Programs.
- Your home must pass an energy audit/inspection to determine if energy efficiency services are warranted for your home.

**To find out if you qualify for the Weatherization Program,
contact Scotty Jones or Maricela Gonzales at the City of
Port Lavaca at 361-552-9793 ext. 234 or 221.**
